

# You Got to Move It, Move It!

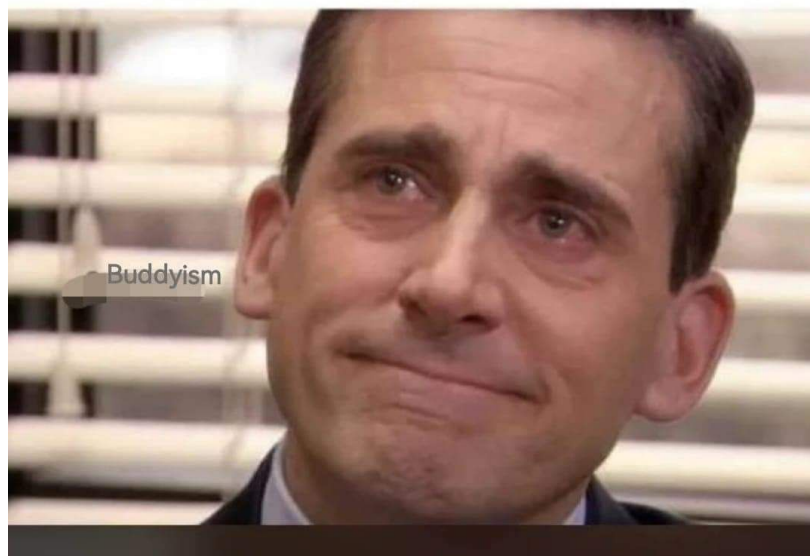

Make Your Lectures Less Boring

Sarah Meyer CVT, FVTE

**There are NO rules  
about what to you do  
during  
lecture and lab.**

**When they open  
powerpoint and you see  
"slide 1 of 243"**

Power Points have become a crutch.

- Use YOUR notes.
- Make a “study guide” for class.
- Pre-test over new material.
- SHORT videos---don't overdo it!

# My Flipped Classroom

## Tangible Props

- Pick a Card
- Roll the Dice
- Toss the Beach Ball
- Labeling machines, equipment, instruments

- Pass around instruments
- Dry Erase Boards
- Drug Columns for Matching, Protocols

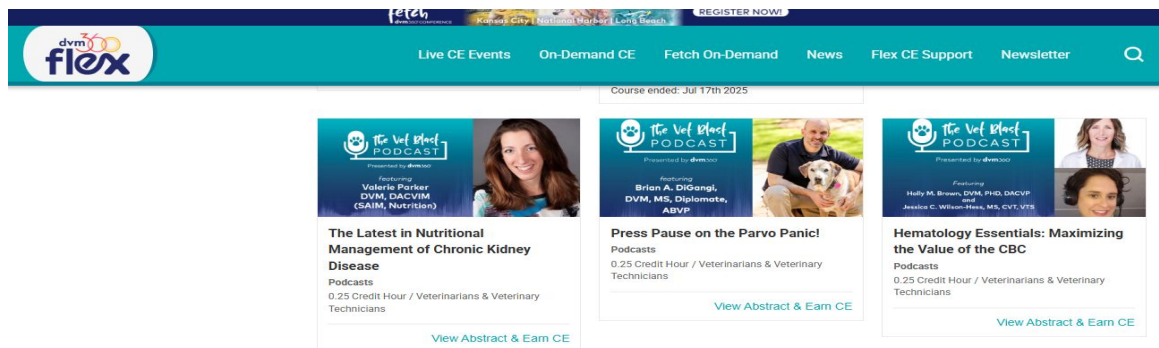

Ask more than you tell.

- “What do you know about....?”
- “Tell me about....”
- “How do you...?”
- “What clinical signs would you see with....?”

# Audio Visual Aids

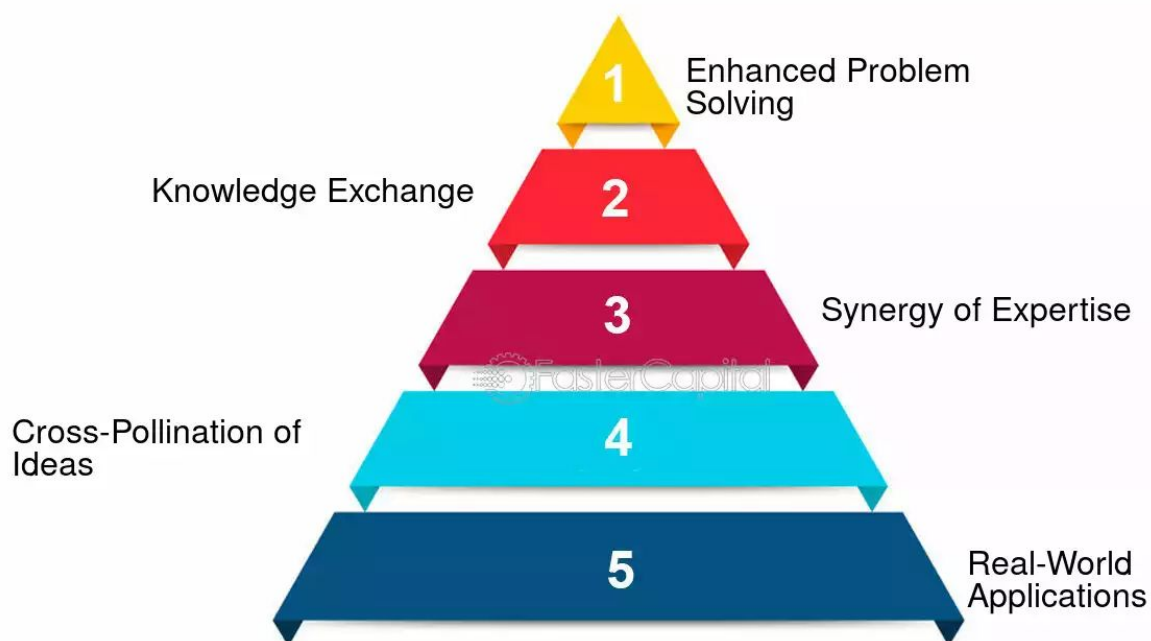

- Videos with sound AND closed captioning
- Audio clips
- Podcasts
  - AVMA
    - My Veterinary Life
    - Veterinary Vertex

# Collaborating Across Disciplines

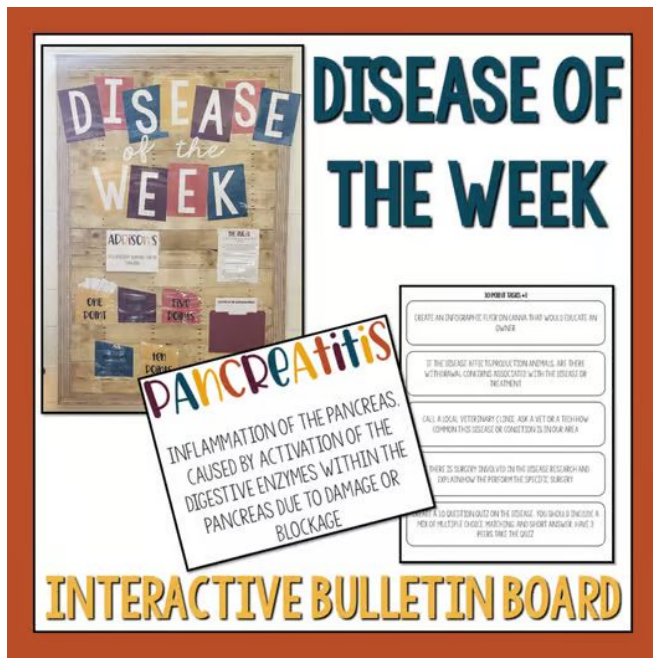

- Health
- Sciences
- Learning
- Center

## Collaborative Case Study Practice

- Patient scenario
  - Signalment
  - Clinical Signs
  - Subjective data from C
  - Objective data from CVT
- Triage/initial contact
- PE
- Diagnostics
  - Findings
- Treatment
- Nursing Considerations
- Discharge Instructions
- Follow-up

### Common Household Hazards For Puppies & Dogs

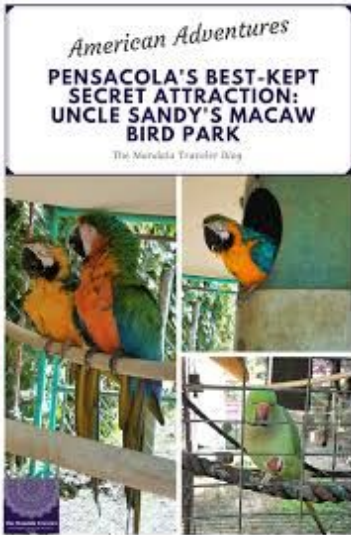

- |  |  |
|--|--|
|  1. Over-the-counter drugs  |  6. Chemical toxicants    |
|  2. Prescription medication |  7. Rodenticide           |
|  3. Food products           |  8. Veterinary products   |
|  4. Chocolate               |  9. Insecticide           |
|  5. Plants and bouquets     |  10. Gardening treatments |

## "IACUC/USDA APHIS" Inspections

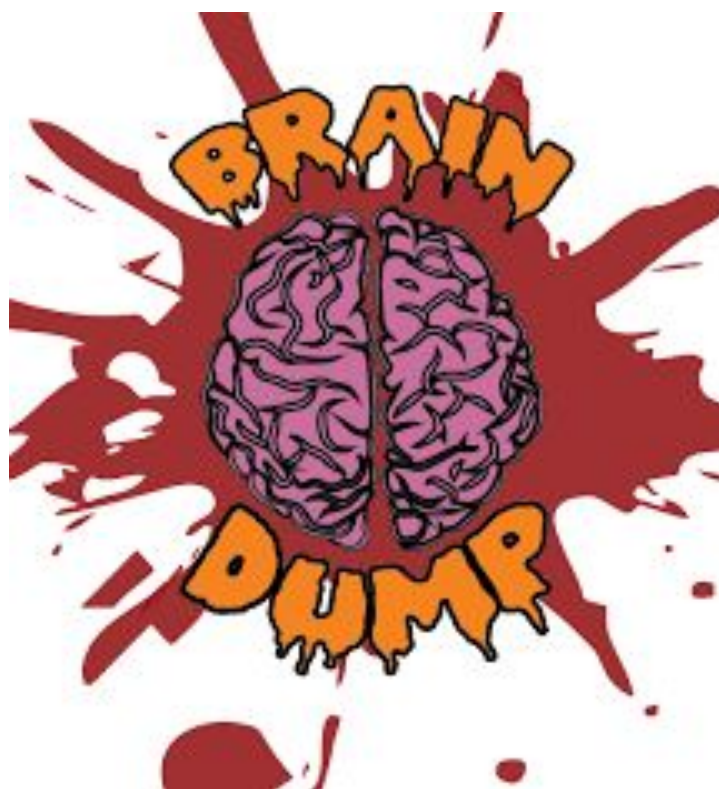

# Go on! Git!

TIME FOR  
A BREAK!
